Instructions to Review Committee: This checklist is designed to guide the review of charter school petitions. Throughout the evaluation, you are asked to rate the petitioner's response to each criteria required for each specific area as **Strong, Sufficient or Insufficient**.

At the end of each section, please elaborate, in the comment section. Your comments are essential to understanding your assessment and will be used as part of the final analysis and report to the County Board. If Insufficient, include concerns and/or additional questions. If Strong, include strengths.

The following rating definitions should be used to guide your assessment:

Strong:

The response reflects a thorough understanding of key issues and indicates capacity to open and operate a quality charter school. The section addresses the topic with concise, specific and accurate information that shows thorough preparation, presenting a clear, realistic picture of how the school expects to implement and operate its program.

Sufficient:

The response indicates solid preparation and grasp of key issues that would be considered reasonably comprehensive. Overall it contains many of the characteristics of a response that exceeds the required standard, although it may require additional specificity, support or elaboration in places.

Insufficient:

The response addresses some of the selection criteria, but lacks meaningful detail and requires important additional information in order to be reasonably comprehensive. It demonstrates lack of preparation, is unclear, or otherwise raises substantial concerns about the petitioner's understanding of the issue in concept and/or ability to implement or meet the requirement in practice
