VENTURA COUNTY BOARD OF EDUCATION

BOARD POLICY NO. 5141.52

ADOPTED: 12/11/17

CLASSIFICATION: Students

REVISED: 03/15/21

SUBJECT: Suicide Prevention

The Ventura County Board of Education and County Superintendent recognize that suicide is a leading cause of death among youth and that school personnel who regularly interact with students are often in a position to recognize the warning signs of suicide and to offer appropriate referral and/or assistance. To attempt to reduce suicidal behavior and its impact on students and families, the Superintendent or designee shall develop measures and strategies for suicide prevention, intervention, and postvention.

In developing measures and strategies for Ventura County Office of Education (VCOE), the Superintendent or designee shall consult with school health professionals, school counselors, school psychologists, school social workers, school nurses, administrators, other school staff, parents/guardians, students, local health agencies, mental health professionals, and community organizations, including law enforcement.

The VCOE shall ensure that measures and strategies for all students are age appropriate and delivered and discussed in a manner that is sensitive to the needs of all students, including K-6.

Such measures and strategies shall include, but are not limited to:

1. Staff development on suicide awareness and prevention for teachers, school counselors, and other employees who interact with any student

2. Instruction to students in problem-solving and coping skills to promote mental, emotional, and social health and well-being, as well as, instruction in recognizing and appropriately responding to warning signs of suicidal intent in others

3. Methods for promoting a positive school climate that enhances students' feelings of connectedness with the school and that are characterized by caring staff and harmonious interrelationships among students

4. The provision of information to parents/guardians regarding risk factors and warning signs of suicide, the impact of the youth suicide problem, VCOE's suicide prevention policy, basic steps for helping suicidal youth, and/or VCOE and community resources that can help youth in crisis
5. Encouragement for students to notify appropriate school personnel or other adults when they are experiencing thoughts of suicide or when they suspect or have knowledge of another student's suicidal intentions

6. Crisis intervention procedures for addressing suicide threats or attempts

7. Assessing for counseling and other postvention strategies for helping students, staff, and others cope in the aftermath of a student's suicide

As appropriate, these measures and strategies shall specifically address the needs of students who are at high risk of suicide, including, but not limited to, students who are bereaved by suicide; students with disabilities, mental illness, or substance use disorders; students experiencing homelessness or out-of-home settings, such as foster care; and students who are of diverse genders and sexualities.
