FOREWORD

The Ventura County Superintendent of Schools Office serves as an intermediate unit between the State of California and local school districts. The primary role of the office is to promote quality educational services to all students by providing leadership, support, assistance, and coordination to school districts and county operated programs through the provision of administrative, educational, fiscal, and clerical services. This report has been prepared to provide school administrators and management teams with information that will aid them in areas of financial planning for Ventura County school districts. We also hope this information will prove of benefit to governing board members, educators, and other interested parties.

The data contained in this report was compiled from various State, County, and District reports. By studying these reports from year to year, it is possible to determine trends in financial activities that have developed over a period of time and to project future trends. However, while we believe the comparative data can be used as a component in the decision making processes of school district management, erroneous conclusions may be drawn unless one is willing to look beyond the data presented to identify other significant variables influencing the report. Questions regarding financial data for a district should be referred to the superintendent or chief business official of that district.

Special appreciation is extended to Paula Driscoll of School Business and Advisory Services, as well as Graphic Reproduction Services, for their assistance in the production of this document.
