- Public Health - Nurses took a parenting course during the summer. They are finishing up the coursework and will be certified to offer services/classes. The referral process will be done through SARB and K-12 throughout the year. The first class will be offered in the Spring and will be at the probation office on Williams in Oxnard. It will be an 8-10 week course. They will earn a certificate and it is evidence based (attendance). The classes will be offered in English and Spanish together and then later offered separately. If seats are not filled, the offer will be made to expelled. Santa Paula offered rooms if needed.

There was a discussion on Vaping 1 in 4 students have tried. Vaping is a serious problem in the schools and because it is odorless it is difficult to discover. Vaping is causing severe pulmonary problems. Students are also putting Vitamin E oil which is also causing lung problems. It was also shared that manufactures of the vaping devices are using cheap metal for the vaping devices which is also causing health problems.
