What is IMPACT II?
IMPACT II is a curriculum sharing and recognition program for educators in kindergarten through grade twelve, in all subject areas and specializations. Since 1993, Ventura County Educators have received more than $300,000 in sponsor funded awards.

How does it work?
Educators submit individual or team curriculum proposals they have developed, provided resources for and used with students in their own classrooms. The awards are a way of helping to cover any out of pocket expenses that the educator may have incurred in developing and implementing the curriculum.

A committee of educators, school administrators and business partners then select the most unique, innovative and ready-to-share ideas to receive the sponsored awards.

Where are the Lesson Plans?
You can learn more about the IMPACT II program as well as access and download the Lesson Plans of current and past recipients at: www.vcoe.org/impactll
