M. DISCUSSION/INFORMATION/ACTION

1. Budget Revision #1
Ms. Key reported that all prior year balances have been carried forward and the final amounts posted. She shared what the changes were in great detail. There were both minor and major changes in the budget. Mrs. Key shared that the outdated and obsolete title “Revenue Limit” has now been changed to “LCFF Revenue” on all of the budget reports.

Ms. Key distributed a chart created by the fiscal office to help demonstrating the trend of the general fund balance over the past decade. Mr. Mantooth referred to the chart and indicated in 2007-08 the Office experienced cuts in revenue due to the recession. The ending balances increased because the Office went into “austerity mode” and was extremely successful in doing that without negatively impacting staff by layoffs and other things.

Ms. Key noted that the Office is deliberately deficit spending and the intent is to spend the money on student programs. There is no fiscal concern.

Mrs. Ulrich moved Budget Revision #1 be approved. Dr. Flores seconded the motion, and the motion passed unanimously (5:0).

2. First Interim Report
Ms. Key noted that the First Interim Report includes the same information as the Budget Revision #1, but on State prescribed forms. The VCOE fiscal team continues to evolve the way programs are accounted for in the budget to align to LCFF. The Board will continue to see changes in the way the budget is formatted and consolidated over the next couple of years.

Ms. Key pointed out the unrestricted and restricted portions of the general fund and the changes that have occurred since budget adoption.
Ms. Key assured the Board there is enough money to pay the bills and meet payroll every month. She also noted there is a positive cash balance every month. There is an Education Code provision which indicates if a school district is in need of cash, we are able to help the district if feasible. The Board questioned whether there is a similar provision for Charter Schools. Ms. Key responded that she would research this issue and report back to the Board.

The Board questioned if workers compensation increases due to incidents. Ms. Key replied that total overall experience in our workers compensation and JPA has increased. Ms. Key explained it is not just the County Office; other school districts are part of the JPA. She also noted that liability insurance is included as well.

Mr. Bates moved the Board approve the First Interim Report as presented. Ms. Ulrich seconded the motion, and the motion passed unanimously (5:0).

3. **Approval of Revised Gateway Single Plan for Student Achievement**

Dr. Rice reported that this is a routine item brought annually to the board. This report is required by California Education Code and the soon to be defunct NCLB Act. It is not yet known if the ESSA will have this as an ongoing requirement. The Plan for Student Achievement reflects the goals presented in the LCAP which is the driving force for accountability plans for California but under NCLB is required to report federal revenue and federal expenditures. Dr. Rice is working closely with Internal Business staff to ensure that expenditures in the Plan for Student Achievement and the LCAP are the same. Dr. Rice noted that thanked Ms. Vega for her work on the Plan for Student Achievement.

Mr. Bates moved the Revised Gateway Single Plan for Student Achievement be approved. Ms. Ulrich seconded the motion, and the motion passed unanimously (5:0).

**N. BOARD MEMBER COMMENTS**

1. Mrs. Ulrich shared that she has a student whose wife worked as a paraeducator at Gateway. She spoke very highly of Mr. Koenig.

2. Mr. Kunicki suggested that in the future when Board members are not going to be present at an appeal and there is an interpreter involved, that the parent is advised beforehand. Mr. Mantooth noted that while parents have the option to request a postponement, the district must agree as well.

3. Mr. Kunicki asked if a MakerSpace has been considered. Mr. Mantooth indicated that the Office has considered this, but unfortunately there is no funding. Dr. Rice and Dr. Morse are looking for ways, with Mr. Mantooth’s approval, to build something collaboratively with the community college. ACE Charter High School has written this into a grant. Mr. Mantooth shared that the Office is hoping to partner with Moorpark Unified School District and Moorpark College to change Moorpark Community School (closed) into a career pathways facility.
4. Dr. Lisagor stated that 10% of K-12 students do not have access to computers or internet access. It seems logical to consider strategies for those students to have the same access that other students have. He would like to look into creating a fund and project that will identify those students and give them scholarships.

5. Mr. Kunicki commented that the 3D printing program is going to accelerate and VCOE is very lucky to have Dr. Morse.
